

FamilyShare

Connect Share Immerse

FamilyShare engages current and prospective clients to aged care facilities, improves acquisition and retention of customers and provides ongoing customer connection and satisfaction

Unlocking meaningful connections

Connect

Video-conferencing platform that allows family members to remotely connect with their loved-ones or upload video messages at their convenience

Share

Access to family video-messages, personal photographs, music and movies for residents living with or without dementia

Immerse

Engaging Virtual Reality experiences that allow loved-ones and their families to experience new places and activities

Challenges of aged care operators

We at CollabCare understand the changing nature of the aged-care sector and the pressure it places on service providers.
